Sharing as FYI. State presentations on biosolids. I'll coordinate with ECOS on opportunities for EPA ORD participation in the summer ECOS STEP meeting.

Subject: ECOS PFAS Caucus Call Materials and Followup

Good afternoon,

Thank you for participating in today's ECOS PFAS Caucus Call. As promised, the two presentations are attached. Please feel free to reach out to Stephanie (MI), Carla (ME), or me with any questions.

Also, I know some last minute background noise made it difficult to hear the final announcements. Tim Buckley (buckley.timothy@epa.gov) from EPA's ORD shared an update on their PFAS Data Explorer. I emailed you all about this a few weeks ago, as they are seeking states to share data/places of interest for the tool. Feel free to email Tim or me for more information. The agency hopes to publish this tool next month.

And finally, I mentioned that ECOS' officers have just decided that its annual State Environmental Protection (STEP) meeting will focus on PFAS in 2020 (theme is theme *Partnering on PFAS*). This will be a one-day policy summit in Washington, DC. The tentative date is July 30 but more details and a firm date (definitely to be held in late July) are forthcoming. The Caucus' standards whitepaper is also moving forward and is almost fully drafted for working group review. Please reach out to me for more information on either of those efforts.

Thanks again for participating, and I will schedule our January Caucus call soon.

Best,
Sarah Grace
